PROJECTS

Rideshare- Ride made Easy

Jan. 2, 2022 - April 12, 2022

Mentor: Avinash Sir | Team Size: 3

I had worked on Rideshare Interface; which was somehow similar to OIA CABS; just the thing is; in our case; vehicle would not be ours; we were acting just as an interface between various vehicle Owners and the common people. And in this case; Car owner and the common people need to register over the platform and based on their current location and need; Peers will be allotted.

Handwritten-digit recognition using Machine learning

Feb. 4, 2021 - April 22, 2021

Mentor: Farhana Shaikh | Team Size: 3

The handwritten digit recognition is the ability of computers to recognize human handwritten digits. and we had made use of CNN Architecture and GUI to take the input from user and predict the numbers accordingly. at last we got the result almost 96%. And concluded it with some results and statistics

Virtual Plasma Bank

Nov. 9, 2020 - Feb. 19, 2021

Mentor: Farhana Shaikh | Team Size: 3

We had created an interface that will help the patient as well as the hospitals to register over there to get easy access of Plasma's available nearby. and as we had made use of various API's over there; user can directly get the direction of the hospital from there and get his work done.
